

# LCL SUITE OF SERVICES

Our suite of Less Than Container (LCL) services helps you choose the solution that meets your needs based on speed, cost, reliability and security.

We understand that sometimes shipment volumes only occupy a portion of an entire container. To accommodate your varying service and inventory requirements, we developed a suite of LCL ocean services to give you more options than the standard Full Container Load (FCL) and airfreight modes.

---

## LCL Features

Broad carrier footprint: We partner with global, regional and niche carriers to provide options for all your shipment needs

Leverage the Expeditors network of offices and gateways with LCL services

Globally consistent systems and processes

Consistent and reliable solutions: we manage all the variables while providing cost-effective and reliable solutions

---

## LCL Suite of Services

LCL Express Platinum (Asia to the US)

LCL Express (Asia, Europe, and India to the US)

Traditional LCL

## One of the largest worldwide LCL providers

### LCL IN NUMBERS

300 published weekly schedules

40K lanes open

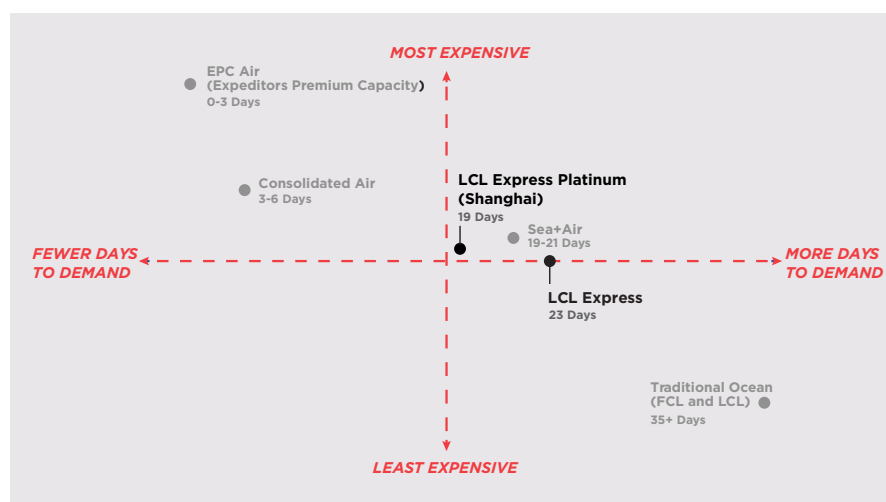

1 Million+ CBMs moved annually on our Bills of Lading

350+ offices available

Whether you're making your shipping decisions based on cost or transit time, our suite of LCL services offers you multiple options that are less expensive than airfreight, and faster than traditional ocean. This diagram offers a holistic view of how our LCL Services compare to all modes from a cost and transit time perspective.

## MODE COMPARISON CHART ASIA TO US

*Note: Diagram is showing transit times for a sample shipment from Asia to the United States.*

## LCL EXPRESS PLATINUM SERVICE

LCL Express Platinum offers the fastest LCL service available from Asia into the United States. Currently, this service transports freight from Shanghai, Ningbo, and Shenzhen to Los Angeles. LCL Express Platinum utilizes faster vessels, offers a single day of dwell time when entering the U.S., and is cheaper than airfreight.

### LCL Express Platinum - All Origins

	A	B	C	D
<b>Traditional LCL</b>	32 Days	33 Days	37 Days	40 Days
<b>LCX Platinum - Shanghai</b>	19 Days	20 Days	21 Days	22 Days
<b>LCX Platinum - Ningbo</b>	19 Days	20 Days	21 Days	22 Days
<b>LCX Platinum - Shenzhen</b>	19 Days	24 Days	26 Days	28 Days

*\*Transit times are subject to change.*

### Key Features

- *Faster than traditional LCL*
- *Less expensive than airfreight*
- *Reliable weekly schedules*
- *Single day of dwell time*

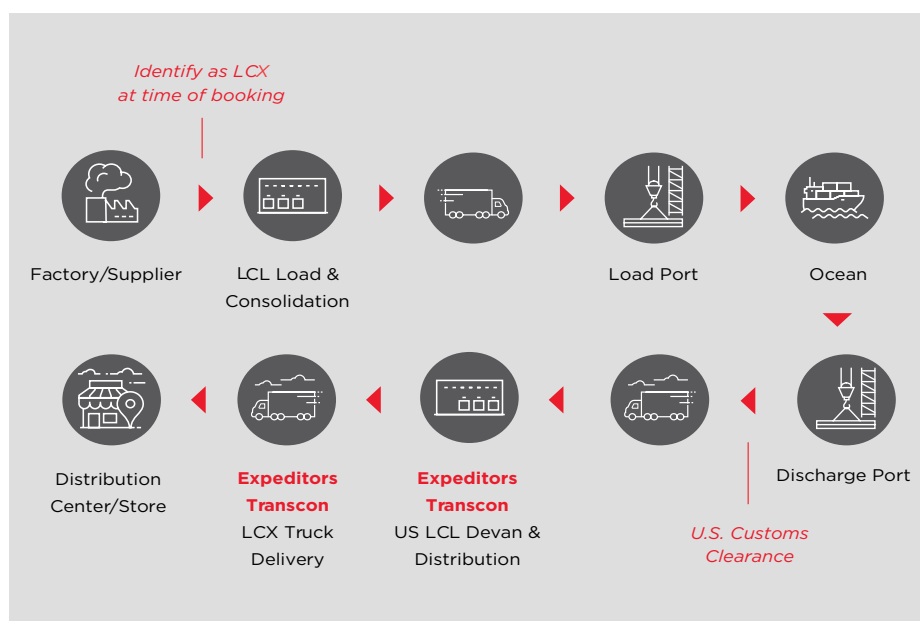

## LCL EXPRESS (ASIA, EUROPE, AND INDIA TO US)

LCL Express is a specialized service available from ports in Asia, Europe, and India to most door destinations in the United States.

LCL Express serves door destinations via Los Angeles for shipments out of Asia, via New York for shipments out of India, and via Philadelphia for shipments out of Europe.

LCL Express is faster than traditional LCL but not as fast as LCL Express Platinum. LCL Express has quicker port turn times and inland deliveries than traditional LCL, and it is significantly cheaper than airfreight.

## LCX Process Flow

## Key Features

- *Faster than traditional LCL*
- *Less expensive than airfreight*
- *Weekly schedules with over 1,500 lanes covered*

## TRADITIONAL LCL

This is the standard less-than-container service available all over the world. We consolidate multiple LCL shipments of different weights and volumes from several shippers to fill a single shipping container. The container is then moved from point of origin to point of destination where it is deconsolidated to deliver individual shipments to their respective consignees.

Expeditors seamlessly assumes the responsibilities and costs of moving the shipping container through multiple touch points in its journey to the final destination while customers simply pay for the space they occupy on that journey.
